Re: In the Matter of the Joint Application of Time Warner Telecom of Arizona, LLC, Xspedius Management Co. Switched Services, LLC and Xspedius Management Co. for Authorization to Transfer Assets.

ACC Docket Nos. T-03943A-07-0205  
T-04112A-07-0205  
T-04113A-07-0205

Docket Control:

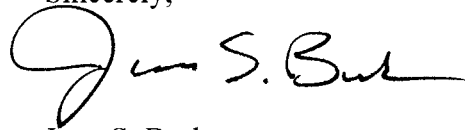

This letter addresses two compliance issues raised by Commission Decision 70057.

1. Commission Decision 70057 ordered Time Warner Telecom of Arizona, LLC ("TWTA") to file conforming tariffs and incorporate, for existing customers only, the terms and conditions of service included in the Xspedius Certified subsidiaries' tariffs. As directed, TWTA filed the appropriate tariffs. TWTA neglected to footnote in that filing that Xpsedius Arizona Tariff No. 2 - Private Line would not be incorporated into the TWTA tariffs because there were no Xspedius customer receiving private line services as of the effective date of Decision No. 70057. I have conferred with Lyndall Nipps, Time Warner Telecom, Vice President Regulatory, on this point and can confirm that the Xspedius Certified Subsidiaries had no private line customers as of the effective date of Decision No. 70057.
2. Decision 70057 also directed TWTA to incorporate into the new TWTA tariffs, the terms and conditions of service for Xspedius products and services delivered to existing customers. TWTA initially reasoned that this requirement applied

only if the TWTA rates were higher than the Xspedius rates. TWTA appreciates how this approach prompted Commission Staff to request a rate comparison chart and a list of customers affected. To avoid this step, and hopefully avoid unnecessary work for Staff and TWTA personnel, TWTA will amend its tariff to include products and services under the same terms and conditions offered by Xspedius as of the effective date of Decision 70057. TWTA will file an amendment to its existing access tariff to make this change.

If you have any questions about this compliance filing, please do not hesitate to contact me or Lyndall Nipps at (760) 832-6275.

Sincerely,
